Get Started Now:

Be sure to explore the entire kit before starting your campaign. Simply modify and print the Fundraiser Action Plan below for your campaign leaders and front-line fund raisers. Then, have your sellers take the 2009 White House Grover Cleveland Ornament Sales Flyer home to show their friends, neighbors, family, and so on. Each fundraiser should keep all payments in a Personal Order Collection Envelope, and record each sale on their Ornament Order Form.

Door-to-Door Fundraising

Setting up a sales achievement incentive program, by offering bonuses to top sellers, inspires competition, and will help motivate your volunteers. Having sales people publicly state projected sales figures, will help reinforce their commitment. All sellers should make a list of prospective customers before they start. Review it and make sure they have at least ten targets. Stick to the people you know - friends, relatives, neighbors, etc. Don't forget co-workers and out-of-town contacts for your major fundraisers.

Door-to-door fundraising should only be conducted during daylight hours, never at night. Children should only solicit in neighborhoods known to them with supervising adults, and should be under direct, line-of-sight, supervision by the supervising adults. Children should also never enter anyone's home without CHECKING FIRST with, and being accompanied by, the supervising adults. Children should never be allowed to participate in door-to-door fundraising without adult supervision, and they should never participate in "street" fundraising where they stand in the medians of busy highways to collect money.

Sellers should never reveal personal information about themselves to anyone, including their telephone number. If a contact telephone number is needed, it should be that of your organization. Parents should be encouraged to participate in their children's solicitation activities and should be fully apprised of all aspects of the project. Parents should also be required to sign a permission slip before a child is allowed to participate.

Using E-Mail to Raise Funds

More and more non-profits are using email to sell the 2009 White House Grover Cleveland Christmas Ornament. Several tips that you might find helpful as you begin an email campaign include:

- Build a database of email addresses. Collect email addresses from alumni, parents, and other supporters every chance you get. Be sure to insure your potential donors that your database will not be sold or rented; that you are collecting the addresses solely for your organization's purposes.
- Be brief. Send brief newsletters to supporters to tell them what is going on in your organization.
- Send messages regularly, but not too often! A regular monthly newsletter with excerpts of activities and needs will keep your organization in the supporter's mind.
- Be responsive. After you have sent your newsletter, expect responses! Set aside time to answer questions or provide additional information to those who request it.
- Give people a way for them to opt off of your subscriber list. Never irritate your supporters by not providing a way for them to have their email addresses removed from the database.
- Always provide the means for more traditional method of communication within the email. Include contact name, address, and phone and fax numbers.
